

Certificate

Pages 1 to 2

Stuttgart, 05 January 2021

compliant with the standard:
DIN 66399-2:2012
ISO/IEC 21964-2:2018

SDR-IT GmbH hereby confirms that the UNTHA RS 40, UNTHA RS 30 and DEPEI GM100 meet the requirements of DIN 66399-2:2012 ISO/IEC 21964-2:2018 with regard to the requirements for data carrier shredders.

The following safety levels have been determined with using sieve analysis:

T Category	Type of material: T – magnetic data carriers: <i>floppy disks, identification cards with magnetic stripes</i>
	Description of the machine: UNTHA RS 40 / RS 30, 15mm Screen, <u>Manual loading on a conveyor system, delivery to the shredder, dropping waste into a grid container, box, etc.</u>
	<u>Protection class: 3</u> Security level: T5
H Category	Type of material: H – hard disk drives with magnetic storage media
	Description of the machine: UNTHA RS 40 / RS 30, 15mm Screen, <u>Manual loading on a conveyor system, delivery to the shredder, dropping waste into a grid container, box, etc.</u>
	<u>Protection class: 3</u> Security level: H5
O Category	Type of material: O – optical data carriers: <i>CD, DVD</i>
	Description of the machine: UNTHA RS 40 / RS 30, 15mm Screen <u>Manual loading on a conveyor system, delivery to the shredder, dropping waste into a grid container, box, etc.</u>
	<u>Protection class: 3</u> Security level: O5

Pages 2 to 2

P Category	Type of material: P – Paper Based Products: <i>paper, film, printed form</i>	
	Description of the machine: UNTHA RS 40 / RS 30, 15mm Screen, <u>Manual loading on a conveyor system, delivery to the shredder, dropping waste into a grid container, box, etc.</u>	
	<u>Protection class: 2</u>	<u>Security level: P4</u>
E Category	Type of material: E – electronic data storage media: <i>USB sticks, chip cards, solid-state hard drives</i>	
	Description of the machine: UNTHA RS 40 / RS 30, 15mm Screen, <u>Manual loading on a conveyor system, delivery to the shredder, dropping waste into a grid container, box, etc.</u>	
	<u>Protection class: 2</u>	<u>Security level: E3</u>
	Description of the machine: DEPEI GM100 <u>Manual delivery to the shredder, dropping waste into a internal container and box.</u>	
	<u>Protection class: 3</u>	<u>Security level: E5/E6</u>

The UNTHA machine manufacturer confirms that the mentioned equipments complies with the following directives EC Directive 2006/42/EC and the standards EN: ISO 12100:2010, ISO 12012-3:2001 + A1:2008, EN 60204-1:2006.
